

Was It Nazi Plot?

Was this, as the Nazis absurdly charged, the result of a Jewish plot justifying the destruction of Jews in Germany? In the middle ground, was the assassin insane or a deliberate murderer? Or, at the other extreme, was it the result of a Nazi plot to afford an excuse for destroying Jews in Germany? The world is entitled to the best available information. Otherwise this may prove to be a new Sarajevo. It can get that information only by a fair trial in Paris. It can get that fair trial only by an aggressive defense adequately financed.

For these, which seem to me overwhelming reasons, I think Miss Thompson's suggestion is of the first magnitude in the murky affairs of a desperate world. I hope it will be generously and widely supported.
